### CANDIDACY OF CHASE OSBORN IS GIVEN FINE ENDORSEMENT

Supervisors of Mackinac County Adopt Resolution Expressing Esteem and Regard for the Son—Is Carried Unanimously at Meeting of Board—Osborn Sentiment Growing.

The strong sentiment in favor of Chase S. Osborn as the man best fitted to occupy the governor's chair at Lansing next term, continues to grow at a rate that must indeed be both pleasing and gratifying to the many loyal friends of the candidate.

The supervisors of Mackinac county, which body is now in session, has seen fit to unanimously adopt a strong resolution in which is expressed the high regard of Mr. Osborn.

The resolution is as follows: "Whereas, Hon. Chase S. Osborn of Sault Ste. Marie has announced his intention of seeking the nomination of his party for the high office of governor of this state; and

"Whereas, He is a resident of our neighboring county of Chippewa, distinguished for pre-eminent qualities of ability, and of sterling worth and character, therefore be it

"Resolved, That we, the supervisors of Mackinac county, in our annual county meeting assembled, do tender our congratulations to our neighboring county upon having one so capable and so highly esteemed to present for such an exalted honor and position; and be it further

"Resolved, That we also extend to Mr. Osborn himself these assurances of our high regard and esteem, as an expression of our confidence in his honor and integrity, and of the pride felt by us, that the upper peninsula has a candidate to offer who commands such general admiration and respect and who, if nominated and elected, will so discharge his duties as to reflect honor and credit upon himself, upon this locality and upon the entire state."

#### PRYOR & SMITH'S GOSSIP.

Phoenix.—The Southern Pacific Ry. will build a line from Winkelman through Mammoth to haul ore from the "Giant" mine of the Calumet & Arizona Co. at Courtland. The mine has over 500,000 tons of ore developed. Latest developments at the Houston shaft of the Superior & Pittsburg Co. indicate an immense body of high grade ore on the lower levels. The Imperial Copper Co. are surveying a road from Imperial to Gulf, which will tap Ajo, where Dr. Seelye W. Mudd has acquired the Ajo and Cornelia mines and eighty more claims for the Guggenheim. The deepest drill hole is 410 feet deep in good ore. The Yuma Copper Co. is in sulphide ore in a vein from the 124-foot level and is now sinking the main shaft with three shifts.

#### READY FOR HALLOWE'EEN.

Houghton boys are anxiously awaiting next Sunday, the occasion being Halloween, the night on which, tradition has it, that ghosts are about, goblins and fairies hold high carnival and many curious and uncanny things are revealed. Outside of this the event is one eagerly looked forward to by the small boy. It is on this occasion that the wise property owner has his winter's supply of cordwood safely under lock and key, his gates securely fastened and his outbuildings protected against destruction.

The police will allow the usual harmless pranks but will not for a minute countenance anything bordering on rowdiness. Any boys caught in the act of causing damage will be immediately arrested.

#### JUNIORS WILL ENTERTAIN.

Class of 1911 Will Give Halloween Party Friday Evening.

The juniors, or members of the class of 1911, of the Houghton Central high school are completing arrangements for a Halloween concert and entertainment to be given in the high school assembly hall on Friday evening of this week. The feature of the concert will be an "A. B. C." show where will be recitations and singing by individuals and choruses, and the high school orchestra will furnish a number of selections. This will be the first school function of the present term, and it will doubtless be well attended. In November the senior class will entertain at a dancing party in Citizens' bank hall.

### KIDNEYS WILL ACT FINE AND BACKACHE GOES AFTER TAKING JUST A FEW DOSES

Out-of-Order Kidneys are Regulated and the Most Severe Bladder Misery Vanishes—No Man or Woman Here in Calumet Can Afford to Neglect Even the Slightest Kidney Disorder.

Out-of-order kidneys act fine and backache or bladder misery is relieved after a few doses of Pape's Diuretic. Pains in the back, sides or loins, rheumatic twinges, debilitating headache, nervousness, dizziness, sleeplessness, inflamed or swollen eyelids, worn-out feeling and many other symptoms of clogged, inactive kidneys simply vanish.

Frequent painful and uncontrollable urination due to a weak or irritable bladder is promptly overcome.

The moment you suspect any kidney bladder or urinary disorder, or feel rheumatism coming, begin taking this harmless remedy, with the knowledge that there is no other medicine, at any

price, made anywhere else in the world which will effect so thorough and prompt a cure, as a fifty-cent treatment of Pape's Diuretic, which any druggist can supply.

This unusual preparation goes direct to the out-of-order kidneys, bladder and urinary system, cleaning, healing and strengthening these organs and glands, and completes the cure before you realize it.

A few days' treatment with Pape's Diuretic means clean, active, healthy kidneys, bladder and urinary organs—and you feel fine.

Your physician, pharmacist, banker or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

### ACTION OF HEALTH BOARD WAS ANTICIPATED HERE

Houghton School Authorities Abolished Common Drinking Cup Weeks Before State Board Decreed They Must Go—Arts and Crafts Being Taught in Manual Training Department.

The recent action of the state board of health, wherein the common or public drinking cup was barred from the schools and railroad trains, was anticipated by the Portage township board of education and some weeks ago the decree went forth in all of the Houghton and Hurontown schools automatic fountains could be installed, in many respects similar to the drinking fountain in the Douglas Houghton school, West Houghton.

Superintendent of Schools Doelle said today that the local board had for many months discussed the matter of installing automatic drinking fountains in the different schools and a decision was finally reached. The fountains have been ordered and will be installed as quickly as possible. In the Douglas Houghton school a similar fountain occupies a prominent position in the lobby on the main floor, and it has proven very satisfactory so far.

There is a question here as to what can be done in the matter of drinking places on trains. Here a limited supply of ice water is carried and it will be out of the question to have an automatic fountain as the supply of water would be gone in a few minutes. It is understood that the state board of health will confer with the different railroads with a view to arriving at some plan whereby the present danger of the common or public drinking cup may be eliminated.

Arts and Crafts Classes. The re-opening of the popular arts and crafts classes of the Houghton high school, under the instruction of Prof. E. A. Krueger, is announced for Saturday, November 6, at 2 o'clock.

The work this year will be somewhat similar to that covered last year and will follow along two general lines. To those desirous of pursuing work largely for artistic training and experience in true craftsmanship, opportunity will be afforded for original designing. In addition a complete stock of materials in carefully selected designs ready for immediate working into constructions will be offered so that a large number of artistic, yet not individually designed, objects, may be made in a short time.

While the former, though commendable, is less rapid, by Christmas students should have completed a series of attractive and acceptable gifts of the latter class.

The manual training equipment in the Central school has been considerably augmented by the addition of a complete set of tools for response work and stakes for raised and formed work. These, with general tools, provide ample facilities for all manner of pierced, etched, hammered, raised, response and formed work, a field broad enough for even advanced workers. For convenience of students and any other local craft workers a stock of materials and sundries, such as pin stems or clamps, bent frame, copper or brass rivets, fasteners, asphaltum, etc., will be on hand.

The following is a list of the articles which may offer suggestion to prospective students: Trays, blotter corners, desk sets, picture frames, candle and lamp shades, lanterns, fern dishes, book rack ends, calendar stands, paper knives, hat or scarf pins, cuff links, buckles, watch fobs in copper, brass or silver. In addition there are scarfs for table or dresser, centerpieces, pillow fronts, work on laundry bags, curtains and handkerchiefs in block printed or stenciled cloth and pennants or emblematic devices of original designs in leather and sewed felt cloth.

As planned, classes will meet Monday and Saturday afternoons. A charge of \$2 is made for eight hours of instruction per month and it is expected the course will prove very popular in Houghton during the coming winter months.

MOSER LUMBER COMPANY Are Busy Engaged Building Camps and Trams, Etc.

The Moser Lumber Co., located at the mouth of the Little Carp river, are making good progress. One car of machinery arrived at Ontonagon last week and another is enroute says the Ontonagon Herald.

The company will manufacture barrel heading, shingles, lath and ties. They are building a dock 400 feet long with a 200 foot L into 16 feet of water and will ship their product to eastern markets by water.

The company's location is ideal for logging and the timber is of a very high grade. The president of the company, E. J. Moser, of Toledo, Ohio, expects to be in Ontonagon this week.

The company will eventually build four mills and they will be so constructed that they can be moved to the logs instead of having to haul the logs for miles after the land has been cut over for a certain distance. Their logging cars will be operated by electricity, the power for which will be furnished from one of the mills.

At present the supplies for the men who are working at the location are being supplied from this village and supplies are taken there weekly.

The first dance ever given under the auspices of the Houghton lodge of Pythian Sisters will be given tonight in the Citizens' bank hall. It is in charge of a committee composed of Mrs. Gibson, Kellow, O'Sullivan, Terrio, Strobel and Randall. The Twin City orchestra will provide the music and a pleasing feature will be the luncheon. The invitation is to the Knights of Pythias and their friends.

### ARRANGEMENTS MADE TO TAKE CARE OF TUBERCULARS

Special Committee Named by Board of Supervisors Closes Deal With Old South Side Mining Co. For Use of Land and Deserted Buildings West of Houghton—Place is Good One.

The indigent tubercular patients of Houghton county, who during the summer and fall months have been taken care of by the county in tents on the grounds adjoining the detention hospital, back of Franklin, will be comfortably housed during the winter in buildings located just west of the village of Houghton. The special committee named by the board of supervisors at its recent meeting, which included County Health Physician Jackson, reports it has concluded a deal with the old South Side Mining Co., whereby it secures all of the accommodations it requires.

There is considerable land west of Houghton owned by the old mining company, and located thereon are five deserted dwelling houses. These buildings can be put in excellent shape by the expenditure of a few hundred dollars and they will serve well the purposes intended. Instead of erecting a large hospital the tubercular patients will be housed in these individual shacks and they will be given every care and treatment.

The committee was given full power to act in the matter so that no further action on the part of the supervisors is a whole is necessary. It is likely one of the five buildings will be utilized as a cooking building, where the food of the patients can be prepared, and where the caretakers will probably reside.

It is expected the final details will be closed today or tomorrow, and the transfer of the patients now at the detention hospital will be made as soon as the buildings have been put in proper sanitary condition.

#### TALENTED SINGERS HERE.

Teckla Farm McKinnis and Husband Arrive to Fill Local Engagements.

Mr. and Mrs. R. P. McKinnis of Loup City, Neb., are in Houghton, having arrived this morning. Mrs. McKinnis is better known as Teckla Farm McKinnis, the talented singer, formerly of Islipening and Sault Ste. Marie, who several years ago entertained a large audience at the Amphitheatre, and who will sing in the big avenue Thursday evening. Mr. McKinnis, who is a bass singer, will assist his wife.

Tomorrow evening Mr. and Mrs. McKinnis sing at Calumet, under the auspices of the Associated Charities.

#### BARAGA LUMBER CO. STARTS

A camp was established for the winter at Point Abnaye last week by the Baraga Lumber Company. Another will be started in about two weeks.

Victor Reed, who has presided over lumbering camps for many years will have charge of the one already started while Fred Urquhart will provide over the one soon to be established.

About 6,000,000 feet of hemlock will be cut between now and spring. Each camp will employ about sixty men.—L'Anse Sentinel.

#### HOTON BREVETTES.

Gordon Houghton, a Houghton boy, star athlete of the Houghton high school for several years and now secretary of Guild hall, Marquette, called on Houghton friends yesterday.

Superintendent of Schools F. A. Jeffers of Adams township has recovered from a brief illness.

A daughter has been born to Mr. and Mrs. William Charles of Baltic. Tickets for the concert to be given Thursday evening by Mrs. Teckla Farm McKinnis went on sale at the Atkin pharmacy today.

From Martin, formerly proprietor of the Gilt Edge cafe, now located in Milwaukee, is visiting Houghton friends.

Mrs. Frank P. Knowles and children will arrive in Houghton today from Iron Mountain to join Rev. Knowles. They will reside on East street. Mrs. Knowles will be accompanied by her mother, Mrs. William Richardson of Detroit.

Thomas W. Gotstein is recovering from a week's attack of grip. Prof. Robert Wagner, ( ) noted pianist of Sault Ste. Marie, who has been visiting friends throughout the copper country, arrived in Houghton yesterday for a short stay.

Dave Paves, immigration inspector at Sault Ste. Marie, was in Houghton this morning, on route to Ontonagon on business.

R. Skiff Sheldon entertained at dinner.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by Eagle Drug Store, Calumet, and Laurium Pharmacy, Laurium.

ner at the Douglass House last evening. Miss Grace A. Whare, who has been engaged as librarian for the new public library, will arrive in Houghton, November 10 from Grand Rapids, Wis., where she has been librarian for some time. Miss Whare is a graduate of the Wisconsin Library school and for nine years was a member of the library commission of that state. Mrs. F. W. Nichols has returned from a visit of six weeks in Chicago.

MRS. EMMELINE GOULD PANKHURST.

New York City, Oct. 26.—The fight for woman's suffrage is to be carried into the American congress if Mrs. Pankhurst, leader of the militant suffragists of Great Britain, has her way. On her arrival here she was greeted by a small but enthusiastic group of admirers and supporters and at once defended the militant tactics.

"All great movements have been worked out by violence," she said. "The American people secured their liberty by violence, so why not rush the house of commons to obtain what we regard as our rights? The ballot granted the women will make them more intelligent, less self-centered and on the whole much better citizens."

"Don't you think that there would be corrupt women politicians and women 'ward heifers'?" Mrs. Pankhurst was asked.

She laughed outright. Then, after a pause, said: "Well, I don't think it could make politics any worse, at any rate."

Mrs. Pankhurst declared that she had been a suffragette as long as she could remember. She had gone to meetings in favor of the emancipation of women when she was only 14 years old, accompanied by her mother, who herself was an ardent advocate of the cause.

Mrs. Pankhurst will remain in the United States until Nov. 22.

Mrs. Pankhurst is slight of stature and has a wealth of brown hair, which is just turning gray. She looked a typical English woman and was dressed becomingly in a dress of dark material.

"I am coming to America," she said, "to speak on the subject of equal rights for women and to study the situation in this country. I think we are away ahead of you in this matter."

As she talked Mrs. Pankhurst displayed a little medallion she wore and explained that it was a distinguishing mark worn by those Englishwomen who have been imprisoned for the cause.

"I suffered solitary confinement," she continued, "and had only one hour of air out of the 24. During the entire 23 I was confined in a little cell eight by ten feet. I had cell 47 on the second floor of Holloway prison and I wore the regular prison garb, too, but I did not bring the costume to New York with me."

"The movement is progressing satisfactorily in England," she went on. "We have pledges from practically two-thirds of the members of parliament to vote for us as soon as a bill is prepared by the government. And we expect sooner or later to compel the government to introduce the bill. Just when this will come to pass I am not prepared to say."

Action of Lightning. Lightning makes trees explode like overcharged boilers. The flames of the lightning does not burn them up, nor does the electric flash split them like an ax. The bolt flows through into all the damp interstices of the trunk and into the hollows under its bark. All the moisture at once is turned into steam, which by its immediate explosion rips open the tree. For centuries this simple theory puzzled scientists, but they have got it right at last.

Lucky Eskimos. The Eskimos have no physicians; indeed, have no name for drugs or doctors. Nature here acts the good sanitarian and shuts the door against all disease germs and blends in their food iodine, the most powerful and least harmful of all antiseptics. The use of remedies either inside or out is unknown. Wounds heal up at once without marring. All tumors, warts and cancers are unknown.

The Why of Sailors' Trousers. It often happens when sailors are making a landing in a small boat that the craft grounds a few yards from the shore, when it is necessary for them to leap out, pull the boat up on the ground or wade ashore. With trousers widely cut at the bottom it is easy to adjust themselves to these or similar conditions.

Happy Eskimos. Eskimos are all children, contented, peaceable, honest and hospitable, without rulers and without ambition for fame or power. They live almost entirely on raw animal food, and this explains the absence of a number of diseases which are common to civilization. Salt water contains iodine, and all sea animals, as well as all who eat them uncooked, absorb more or less of this tickle substance.

A Walking Hotel. After a visit to a famous entomologist, whose wonderful microscopes have proved that there is always some living being to be found preying on the least of the minutest creature last seen, an English writer turned to him and said: "I came here, believing myself to be an individual. I leave, knowing myself to be a community."

Youth's Companion.

As a contrast to the short will of E. H. Harriman, one might mention the will of the late Lord Grimthorpe, in the framing of which no fewer than 11,070 words were used; and that of Mr. Edward Bush, a retired Gloucester engineer, who died last autumn worth £114,812, and disposed of it in a will containing 26,993 words.—Strand.

Remembered Dereliction. On a recent Sunday the clergyman of a parish church in Kent, England, was reading the notices for the week, and concluded by saying: "There will be christening next Sunday at ten-thirty." He then slowly walked to the pulpit. Suddenly turning toward the congregation, he remarked in severe tones: "Remember, Mrs. Tomlinson, I said ten-thirty. A year ago you were late, I believe."

Uncle Sam Real Papa. The Alaskans who inhabit the islands of St. Paul and St. George receive special consideration from the government. Congress authorizes the secretary of the treasury to furnish them with food, fuel and clothing, and for this purpose \$19,500 is appropriated.—Los Angeles Times.

Still Raise Drawbridge. At Helmingham hall, Suffolk, England, the drawbridge is always raised every night over the historic moat, which is more than 700 years old. The moat is not dry, like so many of ancient date, but is filled to the brim. This is the only English castle where the historic right of raising the drawbridge has come down from the days of chivalry.—London Chronicle.

Too Good to Be Missed. Comedian—I can't go on for a minute, sir, I feel funny. Manager—Funny! Great Scott, man! Go on at once and make the most of it while it lasts.—Stray Stories.
